

Technologies Used Against Police & Prosecutors September 28-29, 2010 Shamokin, Pennsylvania

Conference Restricted to Criminal Justice Personnel Only

Hosted by Northeast Counterdrug Training Center, MAGLOCLEN
and Northumberland County District Attorney's Office

COURSE DESCRIPTION

This is a unique and eye opening class for officers and prosecutors who want to learn more on how technology is being used to avoid or detect their investigations. This 16 hour class will examine a number of different technologies from Caller ID spoofing to Steganography, but from an investigating officer's perspective. In addition, we'll look at what can be done to mitigate the problem.

TOPICAL DISCUSSIONS

- Define a number of different technology terms and acronyms.
- List potential methods a target may use to avoid detection utilizing technology.
- List potential technological methods a target may employ to identify police officers.
- Identify and utilize a number of open source search engines.
- Explain the role of social networking sites and their implication to law enforcement.
- Identify steps that an officer can take to better protect his information and identity.
- Identify resources in the Law Enforcement community that an officer can go to for additional information on investigative technology issues.
- Discuss the techniques targets can employ to avoid or circumvent an investigation utilizing technology.
- Describe how Caller ID works and how one can be identified even if Blocking is employed.
- Describe the purpose of privacy settings on social networking sites and its importance to a law enforcement officer.
