For more than 40 years, law enforcement organizations throughout the U.S. and around the world have recognized the significant impact that the School of Police Staff & Command (SPSC) makes on their agencies. The program's unmatched academic curriculum focuses on the management topics required for successful leadership in today's environment and is the only program of its kind available through a Top 10-ranked national university.

“This was a life-changing training. I told my chief I have been on the job as a supervisor for 15 years and feel I just saw the playbook.” — Russ Matson, Deputy Director of Administrative Services, Naperville (IL) Police Department, SPSC #568

Students who complete SPSC are better prepared to:

- Think globally rather than remain task-oriented;
- Deliver services effectively and efficiently;
- Analyze the environment;
- Mitigate legal exposure; and,
- Develop systems of accountability.

Adjunct instructors and guest lecturers, all experts in their fields, enhance the learning experience with an innovative mix of academic principles and practical applications. Instruction blends concepts and strategies with the practical how-to's of implementing those lessons. Our proven track record includes graduates who can lead in situations where the problems are real and agency outcomes are critical.
